

2go™ PC Mobile Solutions TW9

The 2go™ PC TW9 is the right choice for power and mobility

2go™ PC TW9 notebooks feature the latest technologies from Intel™ and nVidia™ to dramatically improve performance, reliability and efficiency.

Outstanding Performance

2go™ PC TW9 takes advantage of Intel™ Core™ processors, featuring Intel™ Turbo Boost technology, dramatically increases performance capabilities over previous generation Laptops. Powering the graphics is the nVidia™ GeForce GT 335M giving you the ultimate in performance and business graphics. Using DDR3 memory, the TW9 maximizes bandwidth to handle your most demanding applications.

Best of class Features

2go™ PC TW9 has the top of the line features you expect in a top of the line business-class machine. Featuring 2 USB Ports, a USB/E-Sata Port, a 1.3 megapixel camera, E-SATA, and an HDMI Connection for high-definition video, the TW9 can connect to all of your peripheral devices. Other top features include an extended life 6 cell battery, Bluetooth, and an integrated 10-key number pad.

Peace of Mind

Fully configured, 2go™ PC TW9 includes a full 3 year parts and labor warranty, further lowering total cost of ownership. As an enterprise-class machine, your configuration can include custom imaging, asset tagging and end of life management.

2go™ PC Mobile Solutions TW9

Premium Graphics From NVidia

The TW9 utilizes NVidia GeFORCE GT335M Graphics to give you visuals so real and so intense, you'll wonder if you're in the game or just playing it. . The NVidia GeFORCE GT335M offers Purevideo HD to accelerate the decoding of HD videos. Furthermore, CUDA and DirectX Compute allow the usage of the cores for general computing.

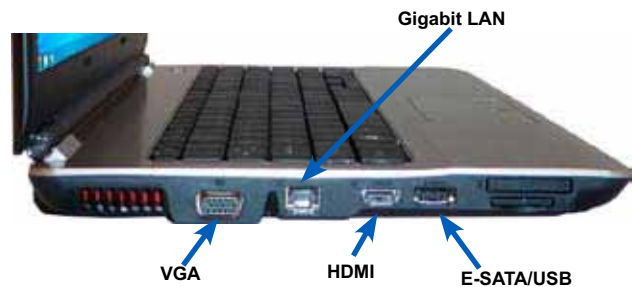

Enhance Performance with DDR3 System Memory

Your system's performance will never disappoint thanks to the latest DDR3 system memory providing greater memory bandwidth, dramatically increasing performance over DDR2.

Expand Storage with E-SATA

Never again worry about taking up too much space with the media you want to save because of the expanded storage space made available through the use of E-SATA. This advanced technology allows for ample space without sacrificing performance compared to USB or Firewire as it is connected directly to the HDD controller when using E-SATA.

Enhance Your Scene with HDMI

Turn your HDTV into a brilliant high resolution computer display with our HDMI port that supports standard, enhanced, or full 1080P HD output allowing you to connect to any 1080P HDTV at full 1920x1080 16:9 HD resolutions, plus multi-channel digital audio on a single cable. Your TV will become a first-rate PC monitor or allow you to enjoy movies saved on your computer in full HD on a larger screen.

Communicate Effortlessly via Webcam

Just because you're far apart doesn't mean you can't be in the same room. Enter the world of online communication and take advantage of the built-in high resolution 1.3 megapixel video camera to participate in a video conference, or simply chat with your friends face-to-face

CPU & PLATFORM
<ul style="list-style-type: none"> • Supports Intel® Core i3, i5 and i7 Arrandale Processors
Memory
<ul style="list-style-type: none"> • Up to 8GB DDR3 Memory (4GB x 2)
Video
<ul style="list-style-type: none"> • 15.6" WXGA Wide Screen LCD • 1366 x 768 Max Resolution • 1GB NVidia GeFORCE GT 335M
Storage
<ul style="list-style-type: none"> • Up to 500GB 7200 RPM (160 GB 5400 Std) • Multi DVD-RW Optical Drive
Communications
